Office Action Summary	Application No. 10/692,463	Applicant(s) LABREC, BRIAN	
	Examiner Vivian Chen	Art Unit 1773	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 30 April 2007.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

1. Claim 8, 10, 13-14, 18, 20-29, 32-33 has been cancelled by Applicant.

1. The indicated allowability of previously presented claim 18 is withdrawn in view of the newly discovered reference(s). Rejections based on the newly cited reference(s) follow.

Specification

2. The amendment filed 4/30/2007 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: the newly filed amendments in which the document structure lacks a discernable interface between laminate and core when the core is not limited to polyester.

Applicant is required to cancel the new matter in the reply to this Office Action.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Art Unit: 1773

2. Claims 1-7, 9 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention for the reasons stated above in the objection to the amendment filed 4/30/2007. The disclosure as originally filed only provides support for the lack of a discernable interface when the core is specified as polyester and does not provide support for the lack of a discernable interface when the core is unspecified and/or polyolefin.

3. Claim 31 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 31 is vague and indefinite because it is inconsistent with the parent claim 30 requiring that the core is polyester.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 17, 19 are rejected under 35 U.S.C. 102(b) as being anticipated by:

(a) WINTER (US 4,765,999); or

Art Unit: 1773

(b) YABE (US 4,362,775).

WINTER discloses a method of forming a laminated polyester film via coextrusion wherein the laminate comprises a first polyester layer comprising PCTA and a second bonding layer comprising PETG. (WINTER, line 9-23, 33-58, col. 2; Examples 1-3)

YABE ET AL discloses a method of forming a laminated polyester film via coextrusion wherein the laminate comprises a first polyester layer comprising poly-1,4-cyclohexylenedimethylene terephthalate and a second bonding layer comprising glycol-modified polyethylene terephthalate. (YABE ET AL, line 40-50, col. 2; line 6-38, col. 3; line 1-5, col. 8)

Claim Rejections - 35 USC § 103

4. Claims 17, 19 are rejected under 35 U.S.C. 103(a) as being unpatentable over:

(a) WINTER (US 4,765,999); or

(b) YABE (US 4,362,775).

WINTER discloses a method of forming a laminated polyester film via coextrusion wherein the laminate comprises a first polyester layer comprising PCTA and a second bonding layer comprising PETG. (WINTER, line 9-23, 33-58, col. 2; Examples 1-3)

YABE ET AL discloses a method of forming a laminated polyester film via coextrusion wherein the laminate comprises a first polyester layer comprising poly-1,4-cyclohexylenedimethylene terephthalate and a second bonding layer comprising glycol-modified polyethylene terephthalate. (YABE ET AL, line 40-50, col. 2; line 6-38, col. 3; line 1-5, col. 8)

Art Unit: 1773

It would have been obvious to a person of ordinary skill in the art at the time the invention was made to utilize a known multilayer film-forming method (e.g., coextrusion) to form a laminate comprising a surface polyester layer and a bonding polyester layer.

Response to Arguments

5. Applicant's arguments filed 4/30/2007 have been fully considered but they are deemed moot in view of the new grounds of rejections.

Conclusion

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Vivian Chen whose telephone number is (571) 272-1506. The examiner can normally be reached on Monday through Thursday from 8:30 AM to 6 PM. The examiner can also be reached on alternate Fridays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Carol Chaney, can be reached on (571) 272-1284. The fax phone number for the organization where this application or proceeding is assigned is (571) 273-8300.

The General Information telephone number for Technology Center 1700 is (571) 272-1700.
